I am surprised that NAB is trying to control XM satellite radio, what is next pay-per-view TV? Just as I pay for certain channels to watch uncut and unsensored movies on my satellite television so should I be allowed to listen to what station I wish with my satellite radio. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully I urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I pay for and deserve.
